HYDRATION STATION

MORE THAN JUST WATER

Every H20 Hydration Station, comes fitted with a FLUUX Filtration System, as standard, removing micro-plastics and bacteria. Along with an extra UV filter you can be confident you are drinking the purest water possible.

CHOICE OF TWO MODELS

Four brightly illuminated selections.

Juice:
1 x Water or Rinse
3 x Flavours
or
1 x Water
1 x Rinse
2 X Flavours

Water Only:
1 x Rinse
1 x 300 ml fill
1 x 500 ml fill
1 x 750 ml fill

STANDARD WATER ONLY DECALS

Your water only machine will be configured to dispense 300ml, 500ml and 750ml of water.*

CONTACTLESS PAYMENT

Supports free-vend and most cashless payment systems.

Standard water only graphics

ADVERTISE

12" media screen shows rolling videos and still images with crystal clear stereo sound.

Preloaded with water only or juice media. Make extra revenue - sell advertising space and add your own media.

REFILL

Built in bottle sensor - use your own reusable bottle. Refill bottles up to 750ml.

Combined with the 50ml rinse function you can keep coming back for more.

Rinse and repeat

Standard juice graphics

HOVER SELECT

The contactless H20 includes Hover Select technology as standard.

Juice or water, safely select your drinks from a distance.

STANDARD JUICE & WATER DECALS

**Alternative decals can be purchased at an extra cost.*

TRIPLE FILTRATION

FLUUX Dual Filtration System Eliminates Bacteria, THM's & Micro Plastics more than 0.1 microns.

UV Filter removes micro organisms and bacteria.

The manufacture and disposal of water bottles has a devastating impact on the environment. This can generate more than 600 times more CO2 then tap water.

CONTACTLESS
ZERO PLASTIC WASTE

AN ECO SOLUTION
BETTER THAN THE REST

LOW CARBON FOOTPRINT

- Made in the UK
- Direct Delivery via Westomatic Fleet
- Eliminates plastic waste
- No Waste Disposal
- Less Restocking
- Less Maintenance

FLASH CHILLED

Don't waste energy!

Drinks are flash chilled upon dispense.

The standard level of Micro Plastics found in drinking water is at .4 Microns. **The FLUUX Filtration System eliminates Micro plastics more than 0.1 Microns.**
